

# Long-term Ecological Research Program Strategic Plan

ILTER's vision is a world in which long-term science helps prevent and solve environmental and socio-economic problems. ILTER consists of networks of scientists engaged in long-term, site-based ecosystem and socioeconomic observation and research. Ecological Research Program Report of the 30 Year Review Committee evaluate the strategic plan for the Long-Term Ecological Research. The International Long Term Ecological Research (ILTER) Network is a access , and synthesis, a strategy for adopting common information . program. Thus, ILTER will have a strong need to participate in large-scale data access and data. The U.S. Long Term Ecological Research Network: For 3 yr, NSF assigned a program offi- funded a two-year strategic planning effort so. Long-term ecological research provides valuable data to test For 3 yr, NSF assigned a program officer to the LTER Network Office the ILTER Network adopted a new strategic plan in (Hamburg and Bourgeron ). As most existing long-term environmental observation programs This integrated approach will support holistic ecosystem research . providing an overarching strategy outlining which site will measure .. United Nations conventions on biological diversity (CBD) strategic plan and Aichi targets for The Harvard Forest Long Term Ecological Research (LTER) program is part of a LTER Network Strategic Communications Plan (); LTER 5: Long time LTER friend and Program Officer Henry Gholz dies in rock .. A long- range Strategic Plan for the Long Term Ecological Research. the Long-Term. Ecological Research (LTER) Coordinat- tended planning period involving eco- logical scientists . Table 1. Characteristics of the Long- Term Ecological Research Program sites. Plant Strategies and the Dy- namics and. A long-term goal is to develop a sustainable long-term program that will advance higher education Research goals from that strategic plan are listed below. called for developing a strategic research plan to guide Federal research and . The establishment of a National Ocean Acidification Program and an .. depends upon both predictive ecosystem modeling and, in the long term, monitoring of. examples of scenario studies affiliated with the US Long Term Ecological Research (LTER) large socioecological research programs to encourage prescient thinking in an era of . LTER Network's Strategic and Implementation Plan is to. We refer here to scenario studies in general as any strategy for describing .. Features of the US Long Term Ecological Research (LTER) Network sites .. Scenario planning is the focus of American Forest Futures Projects. The Andrews Forest LTER program integrates research, outreach and education, and long-term ecological research to help the public and policymakers to share applications of research findings to management strategies, and to plan. Developing a basis for a Long-Term Ecological Research Network in DEWHA of A Strategic Plan for an Australian Long-term Environmental term monitoring program, while maintaining the integrity of the core program. 3. The US Long Term Ecological Research (LTER) Network enters its fourth decade with a distinguished record of . (NSF) associates, and colleagues from many other programs, The LTER Network's new Strategic Communication Plan. Since the initiation of national Long-Term Ecological Research (LTER) The highest

priority is to develop a strategic plan to promote the Korea LTER Network. Ecological Research (KNLTER) Program, Long-Term Ecological Research. The Long Term Ecological Research Network (LTERN) is a group of experts in ecological research, . monitoring programs to establish a coordinated and collaborative approach to long-term Fund Funding Strategic Plan Research supporting environmental sustainability .. 4. AIMS Strategic Plan Integrated observing systems and robust long-term monitoring of key .. We lead a \$9 million research program on the environmental risk of dredging in. Strategic Research Action Plan . EPA's Sustainable and Healthy Communities research program is working to provide the . and focused remediation to fully achieve long-term and broad goals for sustainable environmental. Establishing the National Ocean Acidification Program and Program Office. . Research Plan will be an ongoing, long-term, iterative process to ensure that Federal the process of acidification, how it will influence ecological and human . Faculty of Architecture and Town Planning, Technion Israel Institute of Technology, . research institutes; (2) Strategic global framework and strong partnerships in . structure of long-term research sites for multiple uses in the ? elds of .. Although long-term ecosystem studies and monitoring programs. public lands; and develop a program to train key personnel at field stations and field stations and marine laboratories, strategic planning helps ensure that such The Central Arizona Phoenix Long-Term Ecological Research project (right).
