

Doctoring The Novel: Medicine And Quackery From Shelley To Doyle

[180526 Vixx Live Lost Fantasia Ending Ment]

Taekwoon: Firstly, for 6 years, we have talked about this among ourselves but the reason why we were able to steadily come up to this point was because of all of you. And even after 6 years, we are lacking a lot and despite that we receive a lot of love...we are still lacking a lot but during the time that we will have in the future, we will do our best to fill up your hearts. Thank you, thank you and I am always thankful. Lets walk together/far for a long time.

Hakyeon: Firstly, for 6 years, what I feel is that I am very happy. The thought that I am very happy keeps coming to me and looking at our photos just now, I thought, woah I am a really blessed person. As we prepared for the stages, it was very heart fluttering. I am thankful for the fact that starlights gave us your time as a present. In the future, we will prepare many cool stages like this too, prepare good music, and things that all of you like and that we like. I hope that we can see each other many times for a long time and I hope that we can have that kind of relationship where we know each other deeply. It is already enough now but let's get to know each other even more bit by bit. Thank you.

Jaehwan: Today, our starlight babies...ah I have been saying starlight babies for a long time. But really, when I think of babies, I am very thankful - when we are on stage, before I sleep, during schedules, when practicing, when talking with members, whenever we talk about our babies I am both thankful and very happy. Today too, for coming here, I am very thankful, and thank you for supporting us. It makes me feel like showing all of you even more cooler sides of us in the future. Whenever I see all of you, I want to give you cool stages, good voices and songs to you. I am very thankful and I love you.

Hongbin: We had a lot of greed for this concert - since it was not only our 6th anniversary but also our full album, there were many things we wanted to do. And what I feel is that I really want to just give you all everything. I really want to give everything so I worked really hard but even for extent that we could do, I was so nervous. I was so nervous practicing, even this morning too, but what was really interesting was that when I am in front of all of you, I felt confident. I am thankful just for your existence, and for being like friends, I am very thankful. Thank you.

Wonshik: It has already been 6 years - for such a long time, being together, and for being able to enjoy together, I am very thankful. To be honest, it is not easy to just like or love another person but for such a long time of 6 years, and loving us, I always am very thankful. The people around me always say this - colleagues or friends around me, they say it must be nice to always have people supporting you no matter what you do, and that I must feel so reliable. Everybody's hearts and energy - is to the point that even people around me can feel it. As time passes, I feel like we become closer and I hope that all of you can feel how sincerely thankful we are. Today was really fun, thank you!

Hyuk: The Hyungs have said a lot already, but over this 6 years, letting us come to this point, I am really thankful and you have all worked hard. Not too long ago, when I was resting, I read your supportive messages (like through SNS), and it makes me feel like I am able to share my worries and that there are so many good people around me, and I am very happy. It may not be something I should be saying, but first should be health, second should also be health and I hope that we can always be healthy and together always. Thank you.
